

# CAR WASH INFORMATION MODELING ACCOMPLISH MORE WITH LESS

We are using the power of LiDAR in the car wash industry for the first time!

## BUILD AN ACCURATE MODEL OF YOUR SITE TO SCALE WITH PRECISION.

- ⦿ Less time
- ⦿ Fewer headaches
- ⦿ More insight into your business and future investments

## ACQUISITION RESOURCES

Improve the due diligence of your growth strategy by mapping potential acquisition sites at a new level.

Eliminate guesswork with clear visibility to what upgrades and changes are feasible.

## ASSET TAGGING

Track and manage equipment, components, and marketing assets in one central library, creating streamlined data management for:

- ⦿ Warranty Information
- ⦿ Assent Dimensions
- ⦿ Insurance Policies

You can utilize fly through renderings to access training and product materials virtually. **Work smarter** when you create geotagging safety trainings and specific education modules for your site.
