

NEW RAPID LOCK

TECHNOLOGY

The latest patent-pending technology in vacuum connections, from the company that makes the world's most powerful vacuums.

EFFICIENCY IN FUNCTION

Hose Kit

Secured locking connections for improved suction, theft prevention, and better customer satisfaction.

Made with rust-proof polyolefin components for long lasting performance and guaranteed with a 5-year warranty.

- + Secure Hose Assembly
- + Quick Connect & Disconnect

Dump Valve

Ergonomic and modern design for easy, single-hand open and close, making it easier to manage debris and garbage.

- + Push To Lock
- + Easy To Manage & Empty
- + Quality Made Finish

**ALL AVAILABLE
NOW!**

SanTee

Easily installed to aluminum vacuum piping without additional adapters.

More cost effective than traditional san tee piping options and reduced installation headaches.

- + Aesthetically Pleasing
- + Black UV Resistant
- + No Adapters Needed

NEW **RAPIDLOCK** TECHNOLOGY

OPTIMIZING YOUR VACUUM SYSTEM

Operators, your feedback has been instrumental in the development of RapidLock. We heard your frustrations and took note of your vacuum problems.

RapidLock was developed to reduce your installation headaches and:

- + Prevent replacement costs from theft and damage of your crevice and claw tools
- + Improve connections and vacuum performance, making happier customers and better vacuum results
- + Increase air intake and function of your vacuum system

CONTACT A VACUTECH SPECIALIST TO LEARN HOW RAPIDLOCK WILL SOLVE YOUR VACUUM PROBLEMS TODAY.
